## PROFILE SUMMARY

**Frontend Developer** with 3+ years of experience in the **Advertising Tech** and **Insurance** sectors. Skilled in developing **responsive design** web applications and creating intuitive **UI/UX** interfaces using modern **JavaScript frameworks**. Proficient in **state management**, **API integration**, and optimizing performance to deliver scalable, secure, and high-quality solutions. A collaborative team player focused on building user-friendly interfaces that meet both business and user needs.

## PROFESSIONAL EXPERIENCE

**Media.net**, *UI Developer* 🌐 Mar 2021 – present | Mumbai

- Developed high-performance web applications using **React**, **Tailwind CSS**, **Axios**, and **React Hook Form**, streamlining the development process and accelerating feature releases by 50%.
- Played a pivotal role in crafting **WordPress themes** for one of the most popular blogging sites in the U.S., with a monthly user traffic of 25 million. This involved building custom shortcodes, advanced custom fields, and reusable UI components such as accordions, modals, and forms.
- Enhanced site performance by optimizing for **SEO** and achieving significant improvements in **Web Core Vitals** scores, with improvements reaching up to 99%.
- Leveraged deep expertise in **WordPress** to develop highly customizable websites, tailoring premium themes to client needs and ensuring design flexibility.
- Collaborated effectively with cross-functional teams (designers, back-end developers) to integrate front-end features seamlessly and deliver high-quality user experiences.

**Tekno Point**, *Front-End Developer* 🌐 Aug 2020 – Mar 2021 | Mumbai

- Converted design mockups into responsive, interactive web pages using HTML, CSS, and JavaScript, while developing config-driven UIs that dynamically render based on API data.
- Built and validated complex forms, integrated secure payment gateways, and worked with **Adobe Experience Manager (AEM)** to manage and deliver content efficiently.

**Dezignolics Web & Software Company (Internship)**, *Python Developer* Dec 2019 – Jan 2020 | Mumbai

- Taught Python programming to Bachelor of Engineering students, covering core concepts and best practices.
- Prepared lessons and assisted students with coding exercises, tests, and assessments.
- Provided guidance and feedback to help students develop coding skills and grasp key principles.

## PROJECTS

**Todo App**, *React.js, Redux, HTML, CSS, Javascript* 🌐

- Developed a dynamic web application with React and Redux, ensuring smooth UI and state management.
- Implemented responsive UI using HTML, CSS, and JavaScript, optimizing for multiple devices.
- Integrated features like dynamic data fetching, form handling, and interactive components to enhance functionality.

**YouTube Clone**, *React.js, Tailwind, HTML* 🌐

- Developed a **YouTube clone** using **React** and **Tailwind CSS**, implementing optimized **API calls** with **debouncing** for efficient search functionality and creating a responsive video UI.
- Implemented efficient state management and optimized performance for fast data loading and smooth video playback.

**Bus Management Mobile App UI**, *Flutter* 🌐

- Designed and developed the UI for a Bus Management System mobile app using Flutter, ensuring a seamless experience on both Android and iOS devices.
- Implemented responsive layouts and intuitive navigation, optimizing the app's interface for different screen sizes and enhancing user experience across both platforms.

## SKILLS

React.js, Javascript, HTML/CSS, PHP, Wordpress, JQuery, AEM, SASS

## EDUCATION

**M D College of Arts, Science and Commerce**, *Bachelor of Computer Science* 🌐 2016 – 2019 | Mumbai

**Marceline Junior College**, *Science* 2014 – 2016 | Mumbai
